*Multidirectional,
Flexible
and Time-Saving*

*A New Dimension
in Medical
Equipment Supports*

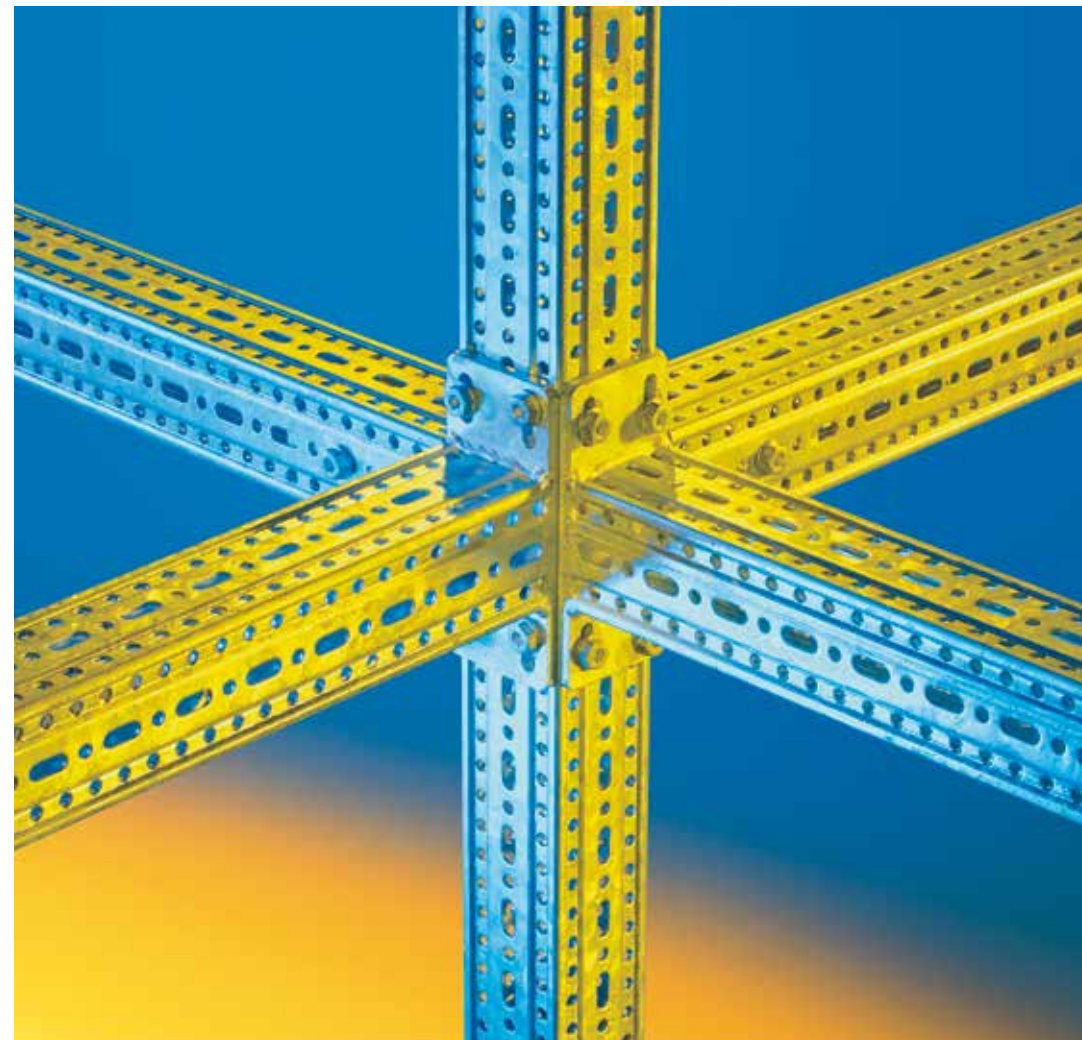

Framo 80

Multidirectional Flexibility
Minimised Assembly Time
Approved Safety

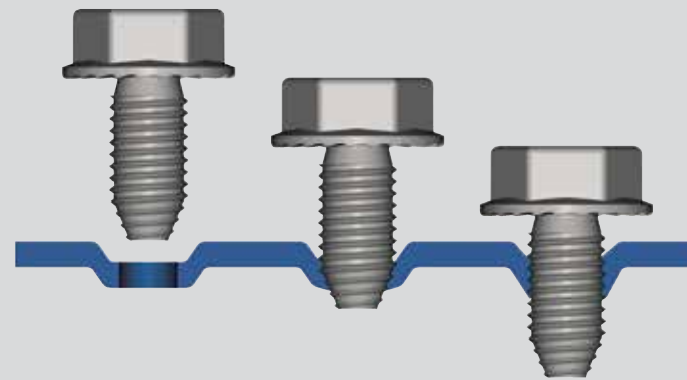

Framo 80 is a multi-functional support system for the modular construction of framing solutions. Framo 80 allows multi-directional connection possibilities. The box section profile has a high torsional resistance and an optimal adjustment capability for connecting members. The innovative connection technology guarantees a maximum installation efficiency.

When it comes to equipment supports, there is only one alternative to welded steel frames. All the advantages of bolted construction and more are joined with the high resistance and full flexibility of Framo 80. Making it the most safe and reliable solution for your framing needs.

Time-saving safety-bolt-connection based on proven self-cutting-technique

- ◆ Easy bolt assembly without need for nuts
- ◆ Swarfless, cold-formed internal thread
- ◆ Self-locking anti-vibration characteristics
- ◆ Single type of bolt for all applications
- ◆ Special locking-serration providing additional safety
- ◆ HCP Coating for sustainable anti-corrosion protection

Fast and Easy to Install

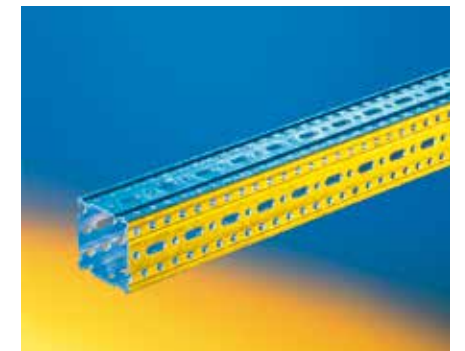

- ◆ Faster to install than conventional welded steel-no special labor needed
- ◆ Reliability of bolted connections – No welding required
- ◆ Beam elements are light. Less than 5 Lbs/foot
- ◆ Only 4 different elements to be assembled
- ◆ Full technical and engineering support by Sikla
- ◆ Full corrosion protection without harmful chemicals

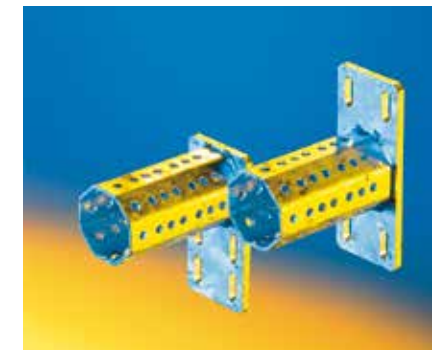

Compact range of flexible industrial framing solutions

Self Forming Screw FLS F 80

Beam Section TP F 80

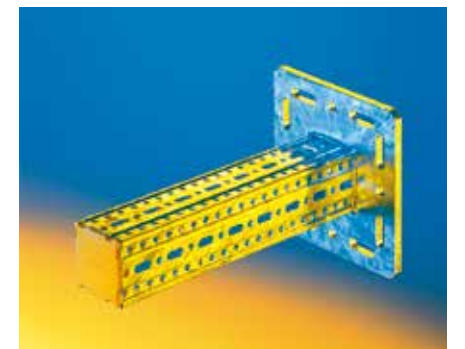

End Support STA F 80

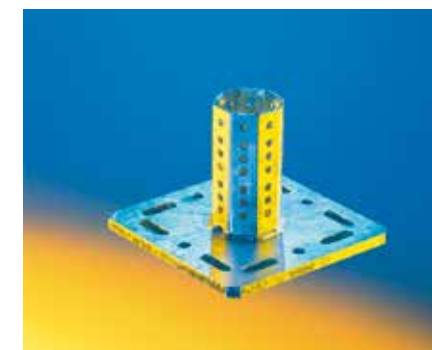

Channel Adapter SA F 80

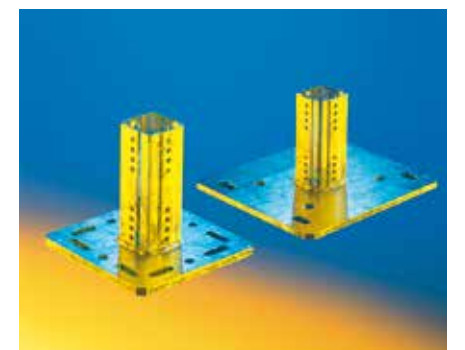

Cantilever Bracket AK F 80

Beam Bracket TKO F 80

End Support WBD F 80-T

End Support WBD F 80

Framo 80

Flexible throughout the job

Framo 80 is the first real alternative to welded frames, enabling volumetric frame assemblies; it provides a new dimension in Healthcare design.

Its modular and flexible framing capabilities allow uncongested ceiling space, flexible installation and a comprehensive support system for all your medical equipment needs.

Framo 80 provides a complete range of framing solutions from patient lifts to full OR support grids.
